SOUTH VERNON 145 ACRES BRINGS \$1,100,000

THREE WELLS BROUGHT IN DURING WEEK

Humble Oil and South Vernon Bring in Good Wells—Others on Sand With Good Showings—Several New Locations Are Made.

Three completions marked activities in the South Vernon field during the past few days. South Vernon No. 19 Stephens came in with a good flow on northwest half of section 83, block 14, in the 1300-foot sand. No test has been made yet, but estimates are around 300 barrels a day. Humble Oil and Refining company's No. 11 and 12 Castlebury were completed in the 1300-foot sand on section 83, block 14, and are producing 300 barrels each. Atlantic's No. 2 Zipperle is being put on a new sand at 1458 feet after flooding with water in the 1300-foot sand on section 80, block 14. As far as can be ascertained, this is an entirely new sand. Attempts to connect it with other levels in the field have proved a failure. Casing is being set now. No. 3 on the same lease is in hard line at 750 feet. The company has located No. 150 feet east of the northwest corner of the lease, and the rig from No. 2 is now being moved on.

Murchison and Fain are on a good sand at 1856 feet in their No. 1 Wagoner on the southwest corner of section 32, block 4, H. & T. C. R. & Co. survey, and are setting casing. This well is a mile and one-half southeast of the Noble well, and almost midway on a direct line between the Noble well and the Gulf wildcat that was brought in recently. Tests show a fair amount of oil.

A brief summary of activities in the field follows:

McCamey-Sheerin-Lucey, Stephens leases, No. 14, 15, 17, drilling; No. 18, location; No. 15, rigging up; No. 1 Wagoner is on a sandy line at 1822 feet on section 32, block 4.

South Vernon Oil company, No. 1, Zipperle, rigging up; No. 22 Stephens granted a permit to make the 1300-foot sand; No. 15, 16 and 18 Stephens and No. 2 Zipperle, drilling; No. 3 Stephens, setting casing on 1300-foot sand.

Consolidated Oil company is drilling at 800 feet in No. 3 Wagoner.

Ray-Massey, Bond, et al, No. 9, drilling; No. 10, spudding in.

Whitburn Oil company, No. 1, Wagoner, lease B, section 23, block 2, location; No. 1, Wagoner, lease A, section 9, block 4, rigging up.

M. L. V. Smith, spudding in on section 35, block 2.

ROUND TIMBERS RANCH IS SOLD

GAMBILL AND CHAUNCEY OF WICHITA FALLS BUY BIG RANCH IN WILBARGER.

A real estate deal of considerable magnitude was made last week when Levi Gambill and W. B. Chauncey, of Wichita Falls became owners of the Round Timbers ranch in the north part of the county on Red River. The ranch contains 5300 acres and about 2,000 acres are tillable. Cotton on this ranch made half a bale to the acre last year.

The ranch has been owned by Sewell Kerr and Patterson of Bell-fountain, Ohio, for the past fifteen years. W. T. Gibbons, who has been foreman for a number of years has moved to his farm in Oklahoma. Mrs. O. T. Warlick of Vernon has the lands leased and will farm about 1,000 acres this year.

The name of Round Timbers was given the ranch by cowboys years ago because of the heavily wooded growth on both side of Red River where the river makes a big half circle bend.

The ranch house and barns are located on the north side of the place in a grove of beautiful trees. The Orient railway runs through the place and the station and loading pens are located one-fourth of a mile from the ranch house. Trains stop here when flagged and the station bears the name of Round Timbers.

LOCAL SCHOOLS ARE AFFECTED BY FUND VETO

Vernon High, Odell, and Harold Will Suffer Through the Governor's Action Saturday—Must Match Federal Appropriations By Local Funds.

The action of Governor Ferguson in vetoing the State's appropriation to match the federal funds donated for vocational education will seriously handicap three schools of Wilbarger county. According to a statement by County Superintendent L. A. Hollar, the domestic arts department at Odell will be practically wiped out. This department was wholly sustained by the state appropriation. More than \$750 will be lopped off the vocational funds for Vernon High school, Superintendent W. T. Lofland stated yesterday. Harold is least affected, losing only \$150 State appropriation, as enough money will be raised locally to match the federal appropriation.

Vernon High's loss is exceedingly heavy because of the fact that the home economics department was sponsored chiefly by federal and state aid, and the home economics phase of vocational training was hampered most by the governor's veto. Vernon High received \$1500 combined State and federal aid. This practically paid one teacher in the department.

However, only \$16,000 of the federal funds each year will be available for home economics work, and it is estimated more than half the schools over the state will be forced to abandon that phase of vocational education. In the future, the Federal Government's funds for vocational education will be allotted only to schools which match the dollars with local funds.

According to a recent statement of L. W. Rogers, first assistant superintendent of education, in the past the State's appropriation of \$312,000 a year meant that more than \$100,000 went into agriculture, manual training, home economics and other vocational branches of education. The federal and state 50-50 funds were matched with an amount equal to the total by school districts. The State's one-fourth will be out, but where districts, by special tax or otherwise, raise funds for this work, the federal allotments will be forthcoming, Rogers states.

The Bureau of Vocational Education of the Department of Education, of which C. L. Davis is director, will continue its work, Miss Jessie Harris is in charge of home economics work and will continue that supervision, although at least half of the schools must abandon it. The appropriation for the vocational bureau of the department was left in the general educational bill. Operation of the vocational bureau costs about \$21,000 yearly.

VERNON WILL BE HOSTESS TO 1926 MEETING

Mrs. Leon H. Brown Extends Invitation at Fort Worth Meeting of First District—Henrietta Withdraws From Race in Favor of Vernon.

Vernon captured the 1926 meeting of the First district of Federation of women's club. The invitation was extended by Mrs. Leon H. Brown, Monday afternoon, at the annual meeting of the district federation. Her invitation was warmly seconded by Mrs. M. C. Culbertson, Miss Robbie Castlebury and Mrs. H. L. Terhune, delegates to the convention from Vernon. Letters and telegrams were read asking that the meeting come to Vernon next year from the Chamber of Commerce, Mayor Harry Mason and others.

The Federation was aware that Vernon intended asking for the meeting by pink place cards, bearing the inscription, "Vernon in 1926," at a luncheon given by the Fort Worth women to the officers and delegates. Henrietta, also asked for the meeting, but withdrew in Vernon's favor.

Mrs. Brown in making her speech said, "Next to God we are indebted to women, first for life itself and then for making it worth living. On behalf of the citizens of Vernon I take pleasure in extending the First district of the Texas Federation of Women's clubs, an invitation to meet in Vernon in 1926."

"We are proud of the club women in this district, therefore we want you to meet mother district with us. The prodigal daughter has returned and Vernon wants to kill the fatted calf."

The business men, the ministerial alliance, the county federation, and everybody in Vernon extends you the glad hand.

"W is for welcome, that we'll give to you."

"E is for the entertainment we have planned."

"L is for the loyalty of our ladies."

"C is for the comforts at hand."

"O is the oil city, that we'll show you."

"M is for the best men in the land."

"E means that everything is true."

"Milton said, 'One tongue is sufficient for a woman.' I have never found one enough, so I shall ask the other Vernon ladies to extend further greetings."

Mrs. Leon Brown was presented with a beautiful pottery jar, American make, as a prize for giving the best report from her club over 250 others. Mrs. Brown is the incoming president of the Delphians and her report was most excellent. Judges listened in over radio and gave their decisions. The contestants were graded on expression, brevity and progress of the club.

The Federation met in Fort Worth.

Scout Band Plays to Large Crowd Thursday Night

The Boy Scout band surprised themselves and their director with the excellence of the program rendered at the band stand Thursday night. A large crowd listened to the youngsters for more than an hour, crowding the court house lawn, and jamming the parking space at the curb.

Director W. E. Shepherd hesitated to let the boys give a public concert after practicing only three weeks, but he was well pleased with the results, and it has been decided to give a public rehearsal each week. The next one will be Saturday night, April 18.

TENNIS FINALS TO BE HELD HERE SATURDAY

Inter-scholastic league tennis finals will be held in Vernon Saturday, April 11, at the High school courts. It was necessary to postpone the tennis games when the league met last Saturday owing to the poor condition of the tennis courts. Since that time the courts have been topped with clay and are now in excellent condition.

HUMBLE OIL AND REFINING COMPANY BECOMES OWNER OF DISCOVERY LEASE OF FIELD

One of Biggest Deals in North Texas Field Is Closed Late Wednesday—South Vernon Company Retains Other Important Holdings.

The Stephens lease of 145 acres, with twelve producing wells, eight wells drilling and locations for two others, was sold by the South Vernon Oil Company Wednesday to the Humble Oil and Refining Company for a consideration of \$1,100,000, payable \$750,000 in cash and \$350,000 from oil produced on the lease. Forty-two additional wells will be drilled on the lease just as rapidly as possible, it was announced following the closing of the deal transferring the discovery lease of the South Vernon field to one of the big companies.

The sale of this property is important from several angles. The consideration itself entitled it to be called a trade of the first magnitude. But the fact that one of the big companies paid that much real money for a lease that eighteen months ago was regarded as of very little value by all oil men stamps the field as one of stability.

Negotiations had been in progress for the property several days, but the announcement of the sale came as a surprise to most of the oil fraternity in the local field.

This deal does not mean that the South Vernon is going out of business. The company still retains holdings that are worth several times the amount of the capital stock—\$72,000 issued out of \$80,000 authorized. The consideration in Wednesday's deal means about 15 to 1 for every share of the capital stock outstanding. The company still owns a lease of 40 acres on the Zipperle tract, adjoining the Stephens lease, in addition to overriding royalties on three other producing leases and 90 acres of undeveloped holdings in sections 99 and 100, adjoining some of the best leases in the field.

The very success of the company has brought about serious problems. The development of acreage had become a big problem that called for experienced direction and almost unlimited resources. Offsets were numerous on all sides and these operations called for a big development program if the lease was to be protected. With the Stephens lease in the hands of one of the big companies its speedy development is assured and the South Vernon company can now devote its energies to development of the remaining 130 acres owned in the field, which may conceivably be worth as much as the Stephens lease within a few months.

Negotiations for the company were directed by Leon H. Brown, secretary-treasurer and attorney for the South Vernon. The Humble was represented in the negotiations by J. B. Hatchett of Wichita Falls. The broker who negotiated the deal was Phil E. Laughlin, of Fort Worth, while Amos G. Carter, publisher of the Fort Worth Star-Telegram, was perhaps the man whose efforts were most responsible for interesting the Humble people in the property. He has been here since Monday conferring with interested parties and getting the details of the big trade in shape for final closing.

Directors of the South Vernon who passed on the terms of the sale and authorized its closing were: J. A. Birdsong, president; W. O. Anderson, vice president; M. L. V. Smith, Hugh M. King. One member of the board, W. H. Huggins, was unable to be present. He is in Dallas under treatment of physicians in an effort to cure his arm injured several months ago in an automobile accident.

Not everyone had faith in the enterprise of the Intrepid 29 members of the South Vernon Oil Company, when, after the Sigler oil boom in 1919 passed into history as a one-well field, this little company went exploring again into the "graveyard of hope." Many openly scoffed at the men, who seemed to be taking such a long chance. Though discouraged at times, their faith did not waver; they kept plugging away and one bright morning Vernon woke up to the fact that a real oil field lay at her door.

With all sorts of discouragements,

STATE LINE HEARING HERE

TEXAS-OKLAHOMA BOUNDARY TO BE LOCATED BY THIS COMMISSION.

A hearing which will finally decide the boundary between Texas and Oklahoma in the Wilbarger county territory was opened in Vernon this morning by a commission composed of A. D. Kidder of the Federal land office of Washington, D. C., and Arthur Stiles of the State land office at Austin. Continuing through Saturday and Monday, this commission will hear all evidence as to the location of the boundary in former years, and from the evidence offered at the hearing will locate and mark the boundary as it is to be. Attorney General Dan Moody has already stated that the action of this committee would be final.

All old residents and owners of property along Red River, about which there may be some question as to where the boundary line should be, are asked to report to this commission at once. The commission asks that all people owning land in these avulsive areas come to the hearings which will be held in the commissioner's court room of the court house annex at 10 a. m. and 2:30 p. m. of the three days mentioned above.

The areas along the river which are to be decided upon are those which have been affected by the change in the course of Red River as far back as is known.

The south bank of Red River has been designated as the official boundary by the Supreme Court of the United States, but this decision provided for a commission to settle upon the south cut bank of the river as it was in 1821. Carrying out this provision the present commission is holding a series of meetings in the eleven counties in which there is any disputed boundary territory. The commissioners come here from Wichita and will hold a hearing in Quanah after they have completed the taking of evidence here.

WICHITA AND VERNON TO PLAY HERE TODAY

A ball game between Wichita Falls and Vernon high schools is scheduled to take place this afternoon at 4 o'clock at Fair park. A close game was played Saturday at Wichita Falls between the rival nine which resulted in a score of 5 to 4 in favor of the local team, indicating that the teams are evenly matched. A large crowd will be in attendance.

The company started out in their first well, M. L. V. Smith, an oil man with lots of experience in drilling, but with very little production, was located. He had a string of tools and agreed to drill the well for a fourth interest in the company. L. G. Hawkins, U. S. Davis, Luther Webb, Bass King, Hugh M. King, W. O. Anderson, J. A. Birdsong, S. A. Castlebury and a few other Vernon people put money into the project. The drilling was slow, lease sales were even slower, money was tight and it was with great difficulty that the rig was kept running.

January 14, 1924, after weeks of delay, Stephens No. 1 came in at a depth of 1970 feet and good for 125 barrels; Stephens No. 2 reached the 997-foot sand, making 25 barrels; March 31 and April 4, Stephens No. 3 with a production of forty barrels was brought in at 1226 feet.

With the deepening of the Wells-Gulberson and the lucky strike of Bridwell-Heydrick and Winnieper, last fall, South Vernon attempted the deeping of their first test and October 14, Stephens No. 1, the discovery well, reached the 2033-foot sand and came in a real gusher flowing 3,000 barrels daily for several weeks. After that it has just been a race by outside capital and Vernon men to reach the pay sand,

"Flaming Forties" and "Thin Ice" To Be At Pictorium

The Pictorium presents some good plays the remainder of the week and Monday and Tuesday. Today is the last showing of "Cho Chin Chow" and "Will Rogers in 'Gee Whiz Genevieve'"; Saturday, Harry Carey is here in "The Flaming Forties"; Monday and Tuesday, "On Thin Ice" will be shown.

"Cho Chin Chow" with Betty Blythe is the dazzling love spectacle that was a stage sensation for five years in London and three years in New York. In "Gee Whiz Genevieve," Will Rogers marries for a home for his dog. The dog makes out all right, but Roger's life is of ten in jeopardy.

Tom Forman, loves the West. Born and reared on a ranch near Odessa, Texas, this young director understands its people, its laws and its idiosyncracies. Even when he was a popular leading man on the stage, he refused to permit his work to take him East to Broadway—the goal of every stage star. He was engaged to direct Harry Carey in "The Flaming Forties."

The play is a photograph adaptation of Bret Harte's "Tennessee Partner." Bret Harte, too, loved his West and it was imperative that a director be secured who would be in sympathy with his well-loved story. According to advance reports, this combination has resulted in one of the most interesting pictures in which Harry Carey has ever appeared.

"On Thin Ice," the new attraction Monday and Tuesday, is a fast-moving, thrilling exposé of San Francisco's underworld, and offers clean diversion for movie-goers who appreciate a well-told mystery story with a kick for the finish.

Edith Roberts and Tom Moore achieve new laurels in this newest Warner picture, which starts off with a rush and finishes with a bang. Miss Roberts' charming youth and unaffectedness makes the heroine of the picture a lovable little maid who becomes involved in a nefarious plot through no fault of her own.

Her adorable mate soon wins the love of Tom Moore, a typical "Prison gangster," who has assumed the role of her long-lost brother in order to carry out the details of a colossal bank robbery. Mr. Moore's performance is another tribute to his pentametric genius, and the audience is with him no matter what he does.

Mr. and Mrs. Roy Chomper spent Wednesday in Wichita Falls.

400 Contestants To Be In Vernon on April 17-19

Near 400 contestants will be in Vernon for the district meet of the interscholastic league to be held here on April 17-18, according to W. T. Lofland, director for this county. Nine counties, Hardeman, Ford, Cottle, Wilbarger, Knox, King, Childress, Hall, and Collingsworth, will have entries in the meet, and it is thought that near 50 people

will be present from each county. The district director is planning to give rooms to all contestants from other counties free of charge on Friday night. It is planned to place the visitors in private homes over the city, and all citizens who have spare rooms are requested to let the fact be known. The visitors will only be here Friday night, and will be furnished only with rooms during that time.

The local Parent-Teacher Associations have agreed to cooperate with Mr. Lofland in securing rooms for the league contestants, and a house committee has been organized to take active charge of the placing of visitors. All trains will be met.

Ercell W. Brooks Again Principal Thompson School

Ercell W. Brooks, principal of the Thompson school, closed a contract this week with the trustees of the same school to teach next year there at a salary of \$175 per month. He had formerly received \$165. This is considered a big salary for a two-teacher school but the trustees have realized the value of the young man to a community in which he teaches. When the inspector for state aid reached Vernon and found that Mr. Brooks was receiving such a good salary, he stated that he did not believe that a two-teacher school could afford such an amount. But on investigating the matter, he changed his opinion.

According to L. A. Hollar, county superintendent, and patrons of the school, eight weeks before time for school to begin, Mr. Brooks assisted in painting the house, redecorating the interior and beautifying the grounds. Everything was as spick and span as a battleship when the day for the school opening rolled around.

Every minute of his spare time is devoted now to the pupils, the school house and grounds. Last Fall, a community fair was staged there and the school rooms were beautiful with their decorations of garden and field products.

He is ably assisted by Miss Evelyn Ashley, who teaches the primary grades and both rooms are kept as neat and clean as the superior housekeeper takes care of her home. A visitor to the school the other day saw a small scrap of torn paper on the floor, he had just glanced at it, when a sharp eyed little miss three seats away arose from her desk and made a dash for the offending fragment.

Not only has he made a comfortable place in which it is a delight for the pupils to spend their study hours, but he invites prominent men and women to talk on subjects of which they have made a life study. Talks are given on scripture, mind training and care of the body.

THE RESPONSIBILITY OF BUSINESS LEADERSHIP.

A story was recently published in the newspapers disposing a covenant entered into between the president and other executives of the Baldwin Locomotive Works, one of the greatest industrial enterprises in the country, whereby they were to abstain from the use of intoxicants in any form. It seems that the agreement was made shortly after the Volstead act became a law and resulted from a casual conversation between the men as to the duty of citizens to strictly observe the law, regardless of what their views might be with reference to the wisdom or efficacy of such laws.

All agreed to the proposition, it seems, that every good citizen should religiously observe the law, both in letter and spirit. It was then suggested that they commit to writing a covenant agreeing to abstain from drinking intoxicants of any kind so long as the law of the country contained an inhibition against the sale, transportation and consumption of intoxicants.

There is nothing particularly noteworthy in this incident, except that it indicates a sentiment among big business men that the duty of all citizens is to observe the law in all its details and ramifications. This idea is in sharp contrast with the attitude of some of the smaller business and professional men, who seem to be of the notion that no social gathering of men is quite complete without liquor. Jobbers and manufacturers have apparently formed the habit of providing liquor for their patrons on every convenient occasion.

As The Record remarked once before, business men, men of wealth and property, above all others should recognize the dangers of lawlessness in any form. It is gratifying to note that the real business leaders of the country are sensible of their duties as citizens and as men of influence to respect even the prohibition laws. It is the little men in big jobs who don't have intelligence enough to see where liquor lawlessness is leading.

DEMOCRATIC REHABILITATION.

The efforts of Franklin D. Roosevelt and other Democratic leaders to call a conference of Democrats to outline policies and effect something of a reorganization of the forces which were more or less disorganized by two rather decisive defeats seem to have gone for naught. Many of the powers that be in the party frowned on the move as being inopportune, while William Jennings Bryan injected himself into the situation, as he not infrequently does, by suggesting that instead of a national conference a powwow of Southern and Western Democrats be held.

These suggestions are interesting chiefly because they evidence an acknowledgement on the part of the leaders that there is something lacking either in the organization or the policies of the national party. Democrats can elect mayors of great cities, Governors of states, Congressmen and Senators, but for some reason the people habitually decline to place a Democrat in the

White House. It is therefore clear that the voters are not prejudiced against Democrats simply because they are Democrats. It is equally clear that it is the national policies of the party that the people distrust.

There will be various views of the cause, Mr. Bryan, for instance, is of the opinion that the taint of capitalism furnished by Eastern Democrats is the real trouble. The enemies of the party have always made the charges that the Democratic party is a sectional one, dominated by the South. Mr. Bryan's proposal is to make it frankly sectional. His reason, of course, lies in the affinity or imagined affinity of the views of the South and West. But it is doubtful if a sectional alignment would add strength to the party. On the contrary, it would be certain to weaken it. As long as the bulk of the voting strength of the country is in a comparatively small group of northern and eastern states, it is folly to hope to win a national election by pursuing a course that would banish whatever hope Democrats now have of carrying the populous doubtful states.

The real reason that the voters distrust the Democrats in national affairs lies in the fact that a pig-headed leadership has for the past few years pandered to radicalism and Socialism. Such men as McAdoo, Bryan and others of their kind who advocate Government ownership, make hypocritical attacks on big business while still getting their incomes from the very interests they denounce, have done more to destroy confidence in the Democratic party than all other agencies combined. If the Democrats hope to win a presidential election in the near future one of two things must take place. They must change their attitude on certain important economic and political questions, or the people must be converted to semi-radicalism of the La Follette type. Judging from results in the two latest presidential campaigns there is no immediate prospect of the latter taking place.

LITTLE MISS GRIFFIN
CELEBRATES BIRTHDAY

Angelena Virginia Griffin was honored at a very pretty birthday party Wednesday afternoon, given by her mother, Mrs. R. R. Griffin, who was assisted by Mesdames W. W. Jones, E. A. Vernon, W. A. Lane, and J. A. Jordan.

The color scheme of yellow and white, suggestive of Easter, was carried out. Many games were played. One game of much interest to the little folks was pinning the ears on the rabbit. Eight gleaming candles adorned the delicious birthday cake. The little girl was seven years old and one candle suggested a year to grow on. Each little guest was given Easter favors. The honoree was given many beautiful gifts.

The following were present: Erna Aleene Nichols, Sarah King, Ruby Lee Leary, Peggy Jo Jordan, Mary Emily Gilbert, Mary Elizabeth McNutt, Marie Louise Rogers, Mary Alice Dray, Roy Martin, Jr., William Wright, John Kendrick Wright, Wayne Barch, Billie Lane, Ambros Veteto, Mack Vernon, Robert Howell.

Dr. E. F. Lyon, pastor of the Baptist Church, is in Balingier where he has been called as a witness in court proceedings.

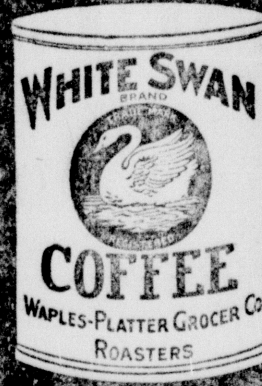

Change Program Hour.

The Vernon Concert band has moved the time for the program up to 7:35 o'clock tonight so as not to interfere with the Methodist meeting. The program will be given at the band stand on the southwest corner of the court house square.

New Storm Cellar at Fargo School.

A big storm cellar is being built at the Fargo school. The dimensions are 14 by 80 and is made of concrete with a concrete roof. It will contain two rooms, 14 by 40, and will house the pupils and teachers quite comfortably. There is a door in each end of the cellar. The storm house will cost approximately \$800.

Mrs. H. S. Pierce of Amarillo is here for a visit with her son, L. O. Johnson and family en route to her home from San Antonio, where she attended the Woodman Circle convention.

Census Shows 5,000 County Scholastics

Incomplete tabulations on the county school census indicate that the total number of children now in the county within school age is well in excess of 5,000. County Superintendent L. A. Hollar reported Wednesday. A number of children over the county have not yet been reported. Mr. Hollar stated, and if this is not done soon, it will be necessary to complete the tabulations without their names, and no apportionment of state money will be granted them.

Since the new census totals are over 5,000, the county superintendent's salary will be raised \$100 yearly. County superintendents' salaries are raised \$100 yearly for each 1,000 increase in scholastic population in the county, but the salary raise is not made until an entire 1,000 has been added. That is, as long as the scholastic population is under 5,000, the salary is the same as for 4,000. This is the first time that the Willbarger scholastic population has totaled more than 5,000.

Present figures show that about 3,500 school children live in the rural districts, and 1,700 in Vernon. However, a number of these are duplicated, causing the total to run slightly over 5,000.

At present the school appropriation is \$14 per capita. Of this amount \$13 has been drawn this year, and the schools will receive the other dollar in May. The appropriation this year has been inadequate, according to the superintendent, because of the large number of students who were going to the various schools who were not officially enrolled in the district, thereby depriving the school of their state money.

Parsley School May Consolidate With Kincheloe

A movement has been started in Parsley school district No. 36, a one-teacher school, to consolidate that district with Kincheloe, according to County Superintendent L. A. Hollar. It is planned to consolidate and leave the first four grades at the Parsley school. It would be possible for the consolidated school to detail a teacher to teach this school, Mr. Hollar stated.

The county superintendent heartily commended the consolidation movement, saying, "It is my ambition to remove all one-teacher schools from the county where it is possible. No one-teacher school can give the children the attention they deserve. It would be almost impossible to consolidate Ronda with another school, isolated as it is, but every other one-teacher school in the county ought to be consolidated."

At present there are only four of the single-teacher schools in Willbarger county, Parsley, Paradise, Ronda, and Guggisberg. Three of these are near enough to larger schools to make consolidation easily possible.

TWO MEMBERS ADDED TO ROSTER OF CAMP CABELL

Camp Cabel U. C. V. was in session Saturday at the regular meeting of the month in the Commissioners' room in the Court House Annex. Dr. A. T. Hays and H. E. Henderson were made members of the local camp at this meeting. The old soldiers are looking forward with much anticipation to the annual reunion, which will be in Dallas, May 19.

Rev. W. A. Bentley of Abilene will preach at Oklamoon Saturday night and Sunday at the Christian Church. Everybody invited.

Pastor To Fill Father's Place After 40 Years

Forty years ago on June 1, the father of Rev. E. L. Moore, pastor of the Presbyterian Church of Vernon, made a commencement address at a little school in Alabama, basing the sermon on Psalm 144:12. Recently, B. H. Boyd, a member of that graduating class of two score years ago, now superintendent of schools at Geneva, Alabama, requested Rev. Moore to make the commencement address for his school, and suggested that Rev. Moore use the same text that his father used years ago.

The local pastor has accepted the invitation and will make the commencement address at Geneva.

New Way to Quickly Stop Worst Cough

A remarkable new and simple method for treating a cough gives relief with the first doses and usually breaks a severe cough in 24 hours.

The treatment is based on the prescription known as Dr. King's New Discovery for Coughs. You take just one teaspoonful and hold it in your throat for 15 or 20 seconds before swallowing, without following with water. The prescription has a double action. It not only soothes and heals soreness and irritation, but it quickly loosens and removes the phlegm and congestion which are the direct cause of the coughing. People have been astonished how quickly the coughing stopped with this new treatment, and the whole cough condition goes in a very short time.

The prescription is for coughs, chest colds, hoarseness, bronchitis, spasmodic croup, etc. It is excellent for children as well as grownups—no harmful drugs. Economical, too, as the dose is only one teaspoonful. At all good druggists. Ask for
